

Capture New Revenue Opportunities

With Click to Run™ solutions from TD SYNnex

Solve business challenges while you spur new growth

Delivering business outcomes – that’s our pledge to you. By utilising Click To Run™ Solutions, TD SYNnex’s Next-Gen Solutions Factory turns complex processes into simple, streamlined deployments. Across cloud, data, IoT and security, our Click To Run™ Solutions mitigate risk, time and cost while providing ease of use for our partners. See how!

Streamline success with Click To Run™ Solutions

Customise at scale

Our portfolio of Click To Run™ Solutions allows our partners to configure, customise and deploy cloud-based next-generation offerings quickly and at scale.

All of our pre-configured, Click To Run™ Solutions leverage trusted platforms such as Microsoft Azure and Amazon Web Services (AWS), as well as an ecosystem of independent software vendors (ISVs).

Empower efficiency and speed

We understand that speed and agility are essential for enterprise cloud adoption. That’s why our Click To Run™ Solutions turn a complex, lengthy deployment process into one that is simple and streamlined.

Our solutions can cut deployment times from days to as little as thirty minutes, driving increased productivity and faster time to market.

Accelerate results

Cloud-based, repeatable and scalable, our Click To Run™ Solutions ease digital transformation initiatives.

We enable our partners to focus on solving business challenges and fostering productive outcomes.
