

TD SYNEX Veeam Backup and Replication

A Click to Run™ solution from TD SYNEX

Business Challenge

Your customers data is critical to keeping their business running. Companies affected by ransomware **lost an average of six working days** to system downtime, with **37 percent** saying downtime lasted a week or more. With the rise of cyber attacks, ransomware, and accidental data loss, businesses seek to defend against these security challenges while keeping costs and risks in check.

Introducing TD SYNEX Veeam Backup and Replication on AWS

Help your clients create a fast and reliable backup and instant recovery environment using TD SYNEX Veeam Backup and Replication on AWS and the management console to protect all workloads including virtual, physical, and cloud.

TD SYNEX's Veeam Backup and Replication solution automatically provisions the AWS resources and components required to create a backup and recovery infrastructure in the cloud. This allows partners to quickly and reliably deploy a cloud backup solution in minutes. One simple solution to manage backups and data no matter where it is from a single console.

Key Features

- Manage and protect data no matter where it is.
- Backup with unlimited capacity and flexibility to create a local backup job and to replicate that data to an offsite location such as AWS.
- Replication with advanced failover features for Disaster Recovery.
- Individual file recovery and easily portable across cloud environments.

Business Outcomes

- Cost Effective Disaster Recovery
- Simplified IT Management
- Agility and Scalability
- Save Time and Shorten Backup windows

Why leverage TD SYNEX's Click to Run™ solutions?

Reduce Cost & Time

Reduce costs, time & risks by customising & deploying pre-architected, validated and tested solutions.

Offer More – Get More

Enhance your portfolio and increase your revenue by offering more options and solutions to your customers.

Faster Time to Market

Broad set of enablement resources to quickly build Cloud Solutions practices within your organisation
