

# Azure Virtual Desktop

A Click-to-Run™ Solution from TD SYNnex

## Business Challenge

Virtualization helps companies address specific business needs, whether this is to provide more secure access to data, resources and meet industry compliance requirements (i.e. FSI, healthcare, government) or to facilitate an increasingly elastic workforce, with the ability to scale on demand and meet the demands of digital workforce.

## Introducing Azure Virtual Desktop

Azure Virtual Desktop enables partners to deploy a ready to use virtual desktop environment in Microsoft Azure within minutes - to provide more secure access, higher compliance, and to facilitate an increasingly elastic workforce with their specific needs and specialized workloads.

This solution lowers the implementation time from 1 week to less than an hour, while providing additional cloud services opportunities for you, including support services & managed services on the cloud infrastructure.

When leveraging this solution, you will be able to create the virtual network and integrate with Azure Active Directory Domain Services for authentication. TD SYNnex pre-configures the environment based on your specifications allowing you choose the size and quantity of the host VM pool along with the preferred region for deployment.

## Key Features

- Create pooled, multi-session resources. Session host VMs utilize multi-session windows 10, or 11 based OS.
- Allows you to virtualize and publish both full desktops and remote applications.
- Create as many session hosts as you need to accommodate your workloads.
- Provide individual ownership through personal (persistent) desktops and user profiles (FsLogix profiles).

## Business Outcomes

- Lower costs and complexity
- Flexibility and better control
- Simplified IT management
- Improved business agility
- Accelerates digital and remote work business transformation outcomes

## Why Leverage TD SYNnex Click-to-Run™ Solutions?

### Reduce Cost and Time

Reduce costs, time and risks by customizing and deploying pre-architected, validated and tested solutions.

### Offer More – Get More

Enhance your portfolio and increase your revenue by offering more options and solutions to your customers.

### Faster Time to Market

Receive a broad set of enablement resources to quickly build cloud solutions practices within your organization.
